

NOTICE OF APPLICATION FOR AN ENVIRONMENTAL AUTHORISATION AND WATER USE LICENCE FOR THE PROPOSED WILDEBOSCH ROAD EXTENSION TO TRUMALI STREET IN STELLENBOSCH, WESTERN CAPE.
DEA&DP REF: 16/3/3/6/7/1/B4/45/1342/23 | DWS REF: WU34262

Zutari hereby gives notice in terms of the Environmental Impact Assessment (EIA) Regulations, 2014, under the National Environmental Management Act, 1998 (Act No.107 of 1998) (NEMA), and the National Water Act, 1998 (No. 36 of 1998) (NWA), that the Stellenbosch Local Municipality (the Applicant), under the Department of Roads and Stormwater, intends to develop a new road in the Paradyskloof area, Stellenbosch. The project would include an extension of Wildebosch Road and upgrading of Trumali Street. The proposed road works trigger activities listed under the NEMA EIA Regulations, 2014 and water uses under Section 21 of the NWA. Therefore, an Environmental Authorisation and a Water Use License are required for the project.

Zutari (Pty) Ltd has been appointed for full professional services as the Design Engineer and an Independent Environmental Assessment Practitioner (EAP) to apply for an Environmental Authorisation and a Water Use Licence for the project.

PROJECT DESCRIPTION

The Wildebosch extension forms part of the Provincial Proclaimed Main Road 169. The extension of Wildebosch commences at Paradyskloof Road where a small portion of road reserve exists (Erf RE/16527) and traverses the farmland (RE/369) in a north-easterly direction to meet the existing Trumali Street, currently a surfaced narrow access road for the Paradyskloof Water Treatment Works. The primary objective of the development is to provide an alternative road alignment to the recently constructed Schuilplaats Road which aligns to the Western Cape Government, Department of Infrastructure's (WCG) R44 Access Management Strategy project, where closure of several intersections onto the R44 have been, and will be, implemented. The phased implementation of the Paradyskloof-Trumali Street portion would have immediate benefits due to current access restrictions on the R44 and proposed residential developments in the area.

LOCATION

The proposed road alignment would be situated on various properties in Stellenbosch, within Paradyskloof and Brandwacht, in the jurisdiction of the Stellenbosch Local Municipality, Cape Winelands District in the Western Cape. The larger Stellenbosch area is situated approximately 50 km east of Cape Town and bordered by the N1 route in the north and N2 route in the south.

OPPORTUNITY TO PARTICIPATE

The First Draft of the Basic Assessment Report is available in a hard copy at the Stellenbosch Public Library, and on the project web page at this link: <https://www.zutari.com/wildebosch-road-extension/>

To register as an Interested and Affected Party (I&AP) or to submit comments, please contact Zutari (Pty) Ltd via the contact details provided below, or use the online comment form found on this link: <https://www.zutari.com/wildebosch-road-extension/>
